To whom it might concern

Letter of recommendation

It's my pleasure to attest the ability of Ms. Yee Yee Htun, as a student of The University of Life Sciences, Norway. Yee Yee Htun, born 15.11.67, is currently enrolled as a full-time student at the Master programme; International Development Studies (M-IDS), at our institution.

As I know Ms. Htun, she is a very hard working and devoted student. She has also adapted very quickly to the very different system and way of living in Norway. She is very engaged in the situation in her former home country, Burma.

All our students who attend this master programme must go to fieldwork and collect data and do their own research for their final Master thesis. Yee Yee Htun will do her independent research on; *"The role of Civil Society in Democratizing Development: A study of Burma"*, in cooperation with Vahu Development Institute (VDI), Thailand.

We therefore ask you kindly, if possible, to assist our student and help her to accomplish her work if necessary.

Please contact me if you have any further questions.

Sincerely yours

Ingunn Bohmann
