Innhold/Content	Side/Page
Glukaner og glukanaser <i>Glucans and glucanases</i>	Hans Kolbein Dahle & Eva Eikum 1
Glukanaser i fôrvarer <i>Glucanases in feed products</i>	Hans Kolbein Dahle , Eva Eikum 7 & Kjell N. Lilleeng
Bygg høstet som grønfôr eller som korn og halm - med eller uten ettergrøder <i>Barley harvested as green fodder or for grains and straw - with or without a subsequent stubble crop</i>	Nils Skaland 13
Planteforedling for eit økologisk landbruk: Eit oversyn <i>Plant breeding for an ecological agriculture - a review</i>	Åsmund Bjørnstad 27
Sammenvoksing og tilvekst ved poding av eple på svaktvoksende grunnstammer <i>Grafting take and subsequent growth of apple cultivars on dwarfing rootstocks</i>	Ole Billing Hansen 39
Lagringsevne hos kålrot etter ulik behandling ved høsting <i>Storage life of swedes after different treatments at harvest</i>	Steinar Dragland 45
Virkning av ulike plasttyper på temperatur og avling av grønnsaker <i>Effects of various types of plastic film on temperature and vegetable yield</i>	Gunnar Guttormsen 51
Nitrogen, fosfor og kalium i grøftevannsprøver fra dyrket mark <i>Nitrogen, phosphorus and potassium in drainage water from cultivated land</i>	Gotfred Uhlen & John Geir Østerud 61
Avrenningsundersøkelser i lysimetre på Ås Forsøksanlegg og resultater 1989/91 <i>Lysimeter runoff investigations at Ås I. Experimental programme and results 1989-91</i>	Gotfred Uhlen, Lars Egil Haugen & Anne Grethe Kolnes 73
<i>In vitro</i> kultur som rejuvereringsmetode <i>In vitro culture as a method for rejuvenation</i>	Maigull Appelgren 93
Bruk av næringsløsninger i korn - intensiv dyrking <i>Foliar application of plant nutrients to cereals under intensive growing systems</i>	Engebret Dæhlin & Hans Stabbetorp 101
Faseoverganger hos flerårige planter <i>Phase changes in perennial plants</i>	Ole Billing Hansen 123
Tyning av ugras i eldre eng i Nordland <i>Weed control in permanent grassland in Nordland</i>	Lars Nesheim & Birger Volden 133
Kjøttproduksjon på kje, slakta etter ein beitesommar Verknad av kastring, kastreringsmåte og alder ved kastring på tilvekst og slaktevekt <i>Meat production in goat kids slaughtered at the end of grazing season. Effects of castration, method of cast- ration and age at castration on growth rate and carcass weight of goat kids</i>	Lars Olav Eik 147

Effekt av CO ₂ -tilskudd fra lav-NO _x brenner på veksten hos noen veksthusplanter	Leiv M. Mortensen	155
<i>Effect of CO₂ enrichment from a low-NO_x burner on growth of some greenhouse plants</i>		
Effekt av CO ₂ -tilskudd fra lav-NO _x brenner på veksten hos tomat ved ulike lysnivå	Leiv M. Mortensen	161
<i>Effect of CO₂ enrichment from a low-NO_x burner on growth of tomato at different light levels</i>		
Virkning på avlingskomponenter og kvalitet i tre jordbærsorter av jorddekking med plastfolie, radtype og redusert styrke av soppmiddel mot gråskimmel (<i>Botrytis cinera</i>)	Rolf Nestby	173
<i>Effects of plastic mulch, row type and reduced dosage of fungicide against grey mould (Botrytis cinere) on yield components and quality of three strawberry varieties</i>		
Vatning og frukttynning av eplesorten "Lobo"	Kristian Lie Kongsrud	183
<i>Irrigation and fruit thinning of the apple cultivar "Lobo"</i>		
Verknader av dekking og gjødsling på stiklingproduksjon, avling og bærstorleik hjå jordbærsorten 'Korona'	Arnfinn Nes & Arne Hjeltnes	195
<i>Effects of covering and fertilization on runner production yield and berry size of the strawberry cultivar 'Korona'</i>		
Vinterproduksjon av veksthusagurk, en økonomisk vurdering	Bjørn Kristoffersen, Svein O. Grimstad & Zdenek Sebesta	205
<i>Winter production of greenhouse cucumber: An economic appraisal</i>		
Sukker og glukosinolat i kålrot (<i>Brassica napus L. ssp rapifera</i>)	Jahn Davik	215
<i>Sugar and glucosinolate content in swede (Brassica napus L. ssp. rapifera)</i>		
Redusert jordarbeiding på morenejord.	Egil Ekeberg	223
Jordundersøkelser <i>Reduced tillage on loam soil. Soil investigations</i>		
Vanning, tørkeperioder og N-gjødsel i frøeng av engsvingel	Gunvald Henning Jonassen	245
<i>Effects of experimental drought periods, irrigation and N-fertilization in meadow fescue (Festuca pratensis Huds.) seed meadows</i>		
Vanning, tørkeperioder og N-gjødsling i plantet og sådd frøeng av hundegras	Gunvald Henning Jonassen	261
<i>Irrigation, drought periods and N-fertilization in planted and sown stands of cocksfoot (Dactylis glomerata L.)</i>		
Kalle - en ny tidlig høstvetesort	Anni Kjersti Uhlen, Kåre Ringlund & Helge Skinnes	275
<i>Kalle - a new early winter wheat variety</i>		
Virkning av ulike såmåter, frøblandinger og slåttetider på forekomsten av tunrapp og knebøyd revehale i eng <i>The effects of different sowing methods, seed mixtures and moving times on the occurrence of annual bluegrass and marsh foxtail in meadows</i>	Tor Jacob Johansen & Olav Martin Synnes	285

Verknaden av nokre kunstgjødselslag på pH-verdien i jorda og på avlinga ved engdyrking	Ådne Håland	297
<i>The effects of fertilizer type on grassland soil pH and yield</i>		
Fornyng av eng i Nordland	Lars Nesheim	305
<i>Renovation of grassland in Nordland</i>		
Ammoniakk tap etter tilføring av husdyrgjødsel i eng - Innvirkning av tilføringsteknikk og gjødseltype	John Morken	315
<i>Ammonia losses after application of slurry to grassland. The effect of application techniques and type of slurry</i>		
Vekstregulator og soppmiddel til byggsorter	Helge Oskarsen	331
<i>Growth regulator and fungicide in barley varieties</i>		
Effekter av ulike lagringsmetoder for pelsdyrgjødsel på mengder og kjemisk sammensetning	Kjetil Aarstrand & Anders Skrede	339
<i>Effects of different storage methods on quantities and chemical composition of manure from fur-bearing animals</i>		
Intramuskulært fett hos storfe. Relasjon til fôring, alder og kjønn. En oversikt	Thor Homb	359
<i>Intramuscular fat in cattle in relations to feeding, age and sex: A review</i>		
Effektar på fruktkvaliteten av ulike lagrings-emballasje til eplesorten 'Aroma'	Lars Sekse	371
<i>Effects of different packaging of 'Aroma' apples on post harvest quality</i>		
Vurdering av 46 sortar og utval av solbær i Sør-Noreg	Arnfinn Nes & Mekjell Meland	381
<i>Evaluation of 46 black currant cultivars and selections in South Norway</i>		
Virkninger av gjødselvatning og jorddekking med brun plast til tre eplesortar	Kristian Lie Kongsrud	401
<i>Effects of fertigation and brown plastic covering of three apple cultivars</i>

INNHold/Content

Side/Page

Virkning av råfosfat som fosforkilde under planteoppal <i>The effect of rock phosphate as a phosphorus source in the raising period of plants</i>	Olav Arne Bævre & Hans Ragnar Gislerød	1
Fosforgjødsling og kalking av torv for planteoppal <i>Phosphorus fertilization and liming of peat for raising plants</i>	Olav Arne Bævre & Hans Ragnar Gislerød	7
Ulik forstyrke til livsaulam <i>Different feeding levels for ewe lambs</i>	Arne Våbenø & Kari Barvik	15
Nitrogengjødsling til tre solbærsortar <i>Nitrogen fertilization of three cultivars of black currant</i>	Arnfinn Nes	31
Lysets innvirkning på pelsdyrenes produksjon. En litteraturoversikt <i>Effects of light on fur animal production. Literature review</i>	Kjetil Aarstrand	39
Virkning av høsteintervall på avling og forkvalitet av eng <i>Effect of cutting interval on herbage yield and quality</i>	Jorulf Øyen	51
Virkning av vasking på eggnes klekkbarhet <i>Effect of washing on hatchability of eggs</i>	Sverre Lund	57
Kvalitet av skjelsand på Vestlandet til jordbrukskalking <i>Quality of shell sand for agricultural liming in Western Norway</i>	Dagfinn Sve, Karl-Jan Erstad & Ingvar Lyngstad	65
Rotdanningsevnen hos svaktvoksende eplegrunnstammer <i>The rooting potential of dwarfing apple rootstocks</i>	Ole Billing Hansen	73
Grønforvekster i reinbestand og i blandinger på Sør-Østlandet i årene 1952-1987 <i>Green fodder crops in pure stands and seed mixtures, south eastern Norway, 1952-1987. Management treatments, yields and yield quality</i>	Nils Skaland	81
Dyrkingsforsøk i sukkermais <i>Growing techniques of sweetcorn</i>	Jon Vik & Åge Susort	107
Dyrkingsverdi av 38 søtkirsebærsortar basert på resultat frå markforsøk <i>An evaluation based on the field performance of 38 cultivars of sweet cherries</i>	Jonas Ystaas & Oddmund Frøynes	115
Arbeidsbehov og kostnader ved kålplanting. 1. Arbeidsbehov <i>Labour requirements and costs of cabbage transplanting. 1. Labour requirements</i>	Liv Lyngstad	127
Arbeidsbehov og kostnader ved kålplanting. 2. Kostnader <i>Labour requirements and costs of cabbage transplanting. 2. Costs</i>	Liv Lyngstad	135
Vurdering av viktige forhold ved valg av metodikk ved energi- og proteinundersøkelser hos melkeku <i>Important considerations when choosing experimental design for dairy cattle experiments</i>	Jan Berg	143

Verknad av plantetid, plantetettleik og topping i tre rosenkål-sortar <i>The effects of date of planting, plant density and stopping on three cultivars of Brussels sprouts</i>	Gunhild Børtnes	155
Verknad av våtkompostert og ubehandla blautgjødsel, og av jordpakking, på infiltrasjon av vatn i dyrka jord <i>The effects of wet composted and untreated cattle slurry, and of soil compaction, on water infiltration rates in cultivated soils</i>	Kristen Myhr, Ådne Håland & Lars Nesheim	161
Varmesum ved lysgroing av potetsorter <i>Heat sum demand when pre-sprouting seed potatoes</i>	Jon Furunes	173
Nitrogen og kalium til potet <i>Nitrogen and potassium for potatoes</i>	Jon Furunes	179
Bestandstest i timotei. Resultater fra feltforsøk med sorter og lokale populasjoner <i>The results of field experiments with varieties and local populations of thimothy</i>	Eli Thorgersen Solberg, Liv Østrem & Bjørn Ivar Honne	189
Norsk engvekstforedling <i>Norwegian forage breeding</i>	Petter Marum & Arild Larsen	205
Fosforinnholdet i føret til verpehøner <i>The level of phosphorus in diets for laying hens</i>	Sverre Lund & Olav Herstad	213
Kvalitet og bruk av kjejkjøtt i matlaginga. Verknad av kastrering på kjøtkvaliteten <i>Quality and use of goat kid meat: Effects of castration on meat quality</i>	Lars Olav Eik	223
Nitrogengjødselens virkning på jord av forskjellig kvalitet Avlingsfunksjoner for gras og korn <i>Yield response curves for nitrogen on different soil qualities</i> <i>Yield response curves for grass and cereals</i>	Jan Askerud Breian & Jan Henrik Wold	231
Kompostering og kompost av fast husdyrgjødsel: Ei oversikt <i>Composting and compost of solid animal manure: A review</i>	Knut Haga	245
Faktorer av betydning for lokalisering av frøavl i skandinaviske sorter av flerårige grasarter <i>Important considerations in the location of seed production in Scandianavian cultivars of perennial grasses</i>	Trygve Sveen Aamlid	259
Tørke ved ulike utviklingsstadier hos potet. I. Frilandsforsøk <i>Drought at different stages of five potato varieties: I. Field experiments</i>	Hugh Riley	279
Tørke ved ulike utviklingsstadier hos potet. II. Veksthusforsøk <i>Drought at different stages in the growth of potatoes. II. Greenhouse experiments</i>	Jon Furunes	289
Ulike oppalingsmetoders virkning på avling i sein kvitkål <i>Effect of various methods of transplant production on cabbage yield</i>	Liv Lyngstad	301
Lagring av veksthusagurk <i>Storage of cucumber</i>	Haldor Hoftun & Svein O. Grimstad	307
In vitro meltegrad i sorter av bygg, havre og triticales, hausta på ulike utviklingssteg til grønfør <i>In vitro digestibility of dry matter in varieties of barley, oats and triticales harvested at different stages of maturity</i>	Odd Østgård	313

Forsøk med ulike høymolearter. Herbicid-effekt avhengig av sprøytetidspunkt, dose og middeltype	Haldor Fykse	321
<i>Experiments with Rumex species. Herbicidal effect depending on time of application, dosage and type of herbicide</i>		
Biologien hos lita og stor kålflue i Nord-Norge	Tor Jacob Johansen & Arnstein Hals	337
<i>The biology of Delia radicum L. and D. floralis Fallén (Diptera: Anthomyiidae) in northern Norway</i>		
Redusert sprøyting mot mjøldogg (<i>Sphaerotheca mors-uvae</i>) til solbær. I. Verknader på sjukdomsutvikling og avling	Arnfinn Nes	351
<i>Reduced spraying against powdery mildew (Sphaerotheca mors-uvae) in blackcurrants. I. The effects on pest development and yield</i>

<i>Content</i>	<i>Page</i>
The influence of feed and water withdrawal time on post mortem biochemical changes and meat tenderness in broilers	Maria Mielnik and Nils Kolstad 1
The influence of starvation time on carcass yield and proximate meat composition of broilers	Maria Mielnik and Nils Kolstad 9
Russian Satellite Imagery of Norway - An Accuracy Investigation of KFA-1000	Ivar Maalen-Johansen 15
Polycross Progenies in Cocksfoot (<i>Dactylis Glomerata</i> L.) Grown under Variable Environmental Conditions	Knut Aastveit, Are Halvor Aastveit & Petter Marum 23
Variation in seed dormancy in genetically homogeneous material of small grain species	Erling Strand 39
The intensity of seed dormancy in small grain cultivars	Erling Strand 45
Studies on seed dormancy in small grain species. III. Oats	Erling Strand 51
Evaluation of the feeding value of fresh forages, silage and hay using near infrared reflectance analysis (NIR)	Nils Petter Kjos 61
The temporal and spatial distribution of arthropod predators of the aphids <i>Rhopalosiphum padi</i> W. and <i>Sitobion avenae</i> (F.) in cereals next to field-margin habitats	Petter Dennis 79
A study of extraction methods for assessing soil zinc availability: I. Soil zinc extractability and soil zinc buffering capacity in relation to soil properties	Xiaofu Wu, Ivar Aasen & Reidar Selmer-Olsen 89
Alkali-treated straw as feed for ruminants: Digestibility of treated straw in sheep and voluntary intake and growth of heifers fed on treated straw	Shuren Xu, Asmund Ekern, Magne Moe & Frik Sundstøl 109
Dip-treated straw supplemented with urea of soybean meal as feed for heifers	Shuren Xu & Åshild T. Randby 123
The performance of bulls fed dip-treated straw vs. grass	Shuren Xu, Åshild T. Randby & Frik Sundstøl 131
Polledness and associated traits in goats	Ola Syrstad 137
A lysimeter study on the nitrogen balance in soil II. Fate of ¹⁵ N-labelled nitrate fertilizer applied to grass	Ingvar Lyngstad 143

Slurry application techniques for grassland: effects on herbage yield, nutrient utilization and ammonia volatilization	John Morken	153
Vegetative and reproductive growth of <i>Poa pratensis</i> L. as influenced by soil compaction	Trygve Sveen Aamlid	163
Vegetative and reproductive growth of <i>Poa pratensis</i> L. as influenced by soil pH	Trygve Sveen Aamlid	183
Technical note: On spectral calibration of Kodak grey cards in red and near-IR bands	Sindre Langaas	201
Substitution of dip-treated straw for grass silage in dairy cows	Shuren Xu, Åshild T. Randby & Frik Sundstøl	209
Digestion and duodenal flow in cows fed dip-treated barley straw and concentrates supplemented with urea or fish meal	Shuren Xu & Frik Sundstøl	221
Rumen degradation of dip-treated barley straw	Shuren Xu & Frik Sundstøl	235
The influence of transportation time on the quality of broiler meat	Maria Mielnik & Nils Kolstad	245
Results from beef crossbreeding in Norwegian cattle	Marie-Christine van Hulten, Gunnar Klemetsdal & Torstein Steine	253
The efficiency of fluorescent lamps in young lettuce plant production	Svein O. Grimstad	261
Effects of Colt and F 12/1 rootstocks on growth, cropping and fruit quality of 'Ulster', 'Van' and 'Sam' sweet cherries	Jonas Ystaas & Oddmund Frøyne	269
Evaluation of ten blackcurrant cultivars	Nina Heiberg & Finn Måge	277
Time of planting, fertilization, plant spacing and transplanting of sugar beet	Tor Lunnan, Arve Skutlaberg & Henning C. Svads	283
The effect of air temperature on the growth of foliage plants	Leiv M. Mortensen	289
Effects of temperature, light and CO ₂ level on growth and flowering of miniature roses	Leiv M. Mortensen	295
Methods of establishing grass/clover swards	Jorulf Øyen	301
Seed production of smooth meadow grass (<i>Poa pratensis</i> L.) as influenced by soil type, pH and compaction		
I. Chemical and physical characteristics	Trygve Sveen Aamlid	307
Seed production of smooth meadow grass (<i>Poa pratensis</i> L.) as influenced by soil type, pH and compaction		
II. Seed yields and other plant characteristics	Trygve Sveen Aamlid	321
Effekt of lighting of <i>Calceolaria x herbeohybrida</i> Voss in the flowering phase on leaf injury	Ragnhild Ulsaker, Saadeh Salamati & Olav Arne Bævre	341

The influence of intercropping and weeds on the oviposition of the brassica root flies (<i>Delia radicum</i> and <i>D. floralis</i>)	Trond Hofsvang	349
Neighbour-effects in oat cultivar yield trials	Erling Strand & Magne Gullord	357
Influence of photoperiod and temperature on dry matter production and chlorophyll content in temperate grasses	Knut Asbjørn Solhaug	365
Nitrogen and potassium nutrition of 'Aroma' apples. Effects on different N and K applications on yield, fruit size and fruit quality	Jonas Ystaas & Oddmund Frøynes	385
The possible prediction of the degree of infestation of honeybee colonies (<i>Apis mellifera</i>) by <i>Varroa jacobsoni</i> OUD. by means of its natural death-rate: a dynamic model approach	Stig W. Omholt & Karl Crailsheim	393
Field estimation of dry matter, plant nutrients and energy of grass silage effluent by hydrometer	Olav Martin Synnes & Steinar Tveitnes	401

Agronomic value of some North Norwegian populations of <i>Agrostis capillaris</i> L.....	Asbjørn Kåre Karlsen	79
Primary and secondary induction requirements for flower initiation in four populations of <i>Agrostis capillaris</i> L.	Asbjørn Kåre Karlsen	97
Effects of fluctuating irrigation on Norway spruce seedlings and nutrient concentrations in the growth substrate ..	Bjørn R. Langerud and Martin Sandvik	109
A study of juvenile pear seedlings	Stein Harald Hjeltnes	119

Skin discolouration of four pear cultivars in relation to maturity, degree of ripening and duration of storage	Atle Kvåle.....	139
The effect of four dietary levels of calcium, adjusted by limestone meal, on feed consumption, production, egg quality and fat and mineral retention in laying hens	Harald Hvidsten and Sverre Lund.....	143
Die Rohstoffbase von Waldfrüchten auf natürlichen Standorten und Plantagen in Polen	Stanislaw Glowacki.....	151
Heavy metal pollution of ombrotrophic bogs in the Kristiansand area, Vest-Agder, Norway.....	Helge Fjeldstad, Ole Øivind Hvatum & Jørn Erik Bjørndalen.....	161
Crossbreeding for increased milk production in the tropics	Ola Syrstad.....	179

Content	Page
Assessment of available zinc for rice in soils of the Tabora region, Tanzania	Mshindo Mbette Msolla, Johnson Mashambo Roland Semoka & Bal Ram Singh 1
Effects of added compost and farmyard manure on P release from Minjingu phosphate rock and its uptake by maize	T.W.D. Ikerra, P.N.S. Mnkeni & Bal Ram Singh 13
The influence of wind on plant development and physiology: a review	Arne Sæbø & Gudmund Taksdal 25
Measuring and mapping crop loss with 35 and 70 mm aerial photography	Willian S. Warner 37
Chemical amelioration of polluted soils	Ekaterina D. Balaganskaya & Herbjørn Lysnes 49
Effects of herring scraps feeding on body fat composition, growth and fur quality in silver foxes	Øystein Ahlstrøm, Anders Skrede & Magny Skinlo Thomassen 55
Effects of tree density on productivity and fruit quality of 'Red Gravenstein' on rootstocks M9 and M26 in a single-row system	Jonas Ystaas, Olav Hovland & Atle Kvåle 69
A comparison between meadow fescue and timothy silage 2. <i>In vivo</i> digestibility experiments including studies on <i>in sacco</i> degradation and rumen fermentation in sheep fed silage alone or different silage:concentrate ratios	Astrid Johansen 75
Further studies on the effects of ozone concentration on growth of subalpine species	Leiv M. Mortensen 91
N-requirements of cabbage crops grown on contrasting soils. II. Model verification and predictions	Hugh Riley & Gunnar Guttormsen 99
Performance of Eruni and Pixi as rootstocks for European plum cultivars in a northern climate	Jonas Ystaas, Finn Måge, Per Husabø & Oddmund Frøynes 115
Effects of bed height, plant spacing and cultivar on strawberry yield and fruit classification	Rolf Nestby 127
A comparison between meadow fescue and timothy silage 3. Feeding experiments with dairy cows	Astrid Johansen & Leidulf Nordang 135

Possible causes for the changing incidence of adverse flavours and taints detected in milk delivered to dairies in south-west Norway	Fergus L. Mould & Bjørn Gunnar Hansen	155
Fillet gaping in farmed Atlantic salmon (<i>Salmo Salar</i>)	Urd Bente Andersen, Arne Naas Strømsnes, Kjell Steinsholt & Magny Skinlo Thomassen	165
Moose (<i>Alces alces</i>) and mountain hare (<i>Lepus timidus</i>) use of conifer plantations following glyphosate application	Olav Hjeljord	181
Forest fungal diseases of Tanzania: background and current status	Vincent R. Nsolomo & Kåre Venn	189
First registration of the cherry fruit fly, <i>Rhagoletis cerasi</i> (L) in western Norway; distribution, size and origin of the population	Gunnhild Jaastad	203
Density estimation of soil mineral nitrogen content from farming locations in Norway and from a cropping system experiment	Ole Fugleberg	215
Effects of cattle slurry and soil compaction on the earthworm population in a silty clay loam in central Norway	Trond K. Haraldsen, Marit A. Larsen & Kristen Myhr	231
Effects of long-term crop rotations, fertilizer, farm manure and straw on soil productivity I. Experimental design and yields of grain, hay and row crops	Gotfred Uhlen, Anne-Grethe Kolnes & Bibbi Thorbjørnson	243
Control of flowering in <i>Phalaris arundinacea</i>	Ola M. Heide	259
Pure stand establishment of <i>Poa pratensis</i> L. for seed production: sowing rates and sowing methods	Trygve Sveen Aamlid	277
Dry matter production and botanical composition of monocultures and mixtures of meadow fescue (<i>Festuca pratensis</i> Huds.) and timothy (<i>Phleum pratense</i> L.) in field experiments at three locations in northern Norway 1984-89	Marit Jørgensen, Ivar Schjelderup & Olavi Junttila	291
The Apelsvoll cropping system experiment I. Background, objectives and methods	Ragnar Eltun	301
The Apelsvoll cropping system experiment II. Soil characteristics	Hugh Riley & Ragnar Eltun	317

Content

Page

Growth chambers with control of light quality	Leiv M. Mortensen, Erling Strømme, Zdenek Sebesta & Dag Wenner	1
A paper chromatographic survey of the phenol content of apple peel from scab resistant and scab susceptible genotypes	Johannes Øydvin & Daryl G. Richardson.....	7
A study of «Victoria» seedlings	Stein Harald Hjeltnes	15
Resistance of strawberry to photosynthetic inhibitors as a basis for ranking of cultivars	Haldor Fykse	25
Weather and yield of Westerwoldh ryegrass	Arne Oddvar Skjelvåg.....	35
Cold hardiness in the Black Vine Weevil (<i>Otiorhynchus Sulcatus</i> (F.)) (Coleoptera: Curculionidae).....	Christian Stenseth.....	41
Activator proteins for lipoprotein lipase from bovine plasma. A partial amino acid sequence analyses	Harald N. Astrup.....	45
The distribution of orally administered Magnesium-28 in two dairy cows	Harald N. Astrup, Harald Hvidsten and Kjell Steenberg	49
Interference between solid fats and magnesium. Biochemical observations in veal calf feeding	Harald N. Astrup.....	57
Evaluation of colour quality in blackcurrant fruits grown for industrial juice and syrup production	Grete Skrede	67
Magnesium, Glucose and Cholesterol in serum of pregnant ewes fed silage and barn dried hay	Harald N. Astrup & Jon J. Nedkvitne	75
Feed conversion, pork fat softening and liver malon- dialdehyde reactivity in pigs supplemented with copper.....	Harald N. Astrup & Torolv Matre.....	81
Effects of vitamin D supplement on cows and sheep	Harald N. Astrup & Jon J. Nedkvitne	87
Experiments with <i>Rumex</i> Species. Translocation of assimilates and MCPA related to carbohydrate content of the roots and herbicide effect	Haldor Fykse	97

Anther culture of cabbage. Influence of growth temperature of donor plants and media composition on embryo yield and plant regeneration.....	Cathrine Lillo & Magnor Hansen	105
Enzymes and off-flavours: Palmitoyl-CoA hydrolase, lipoxygenase, -oxidation, peroxidase, catalase activities and ascorbic acid content in different vegetables	Pernille Baardseth & Erik Slinde	111
Causes of variation in the lengths of growth periods and the heat sum requirements of cereal cultivars	Erling Strand.....	119
Selection for litter size in mink. I. Background, analyses of the base population and design of the experiment ..	Einar J. Einarsson.....	131
Selection for litter size in mink. II. Direct response in litter size at birth	Einar J. Einarsson	155
Selection for litter size in mink. III. Prepartum and preweaning observations	Einar J. Einarsson.....	179
